INTRODUCTION

The purpose of this document is to outline the requirements for an E-Commerce page that showcases three products,

- ▶ Wired Headphones.
- ▶ Neckband.
- ▶ TWS earphones.

The page should be visually intriguing and should have a header with a highlighted offer.

REQUIREMENTS

HEADER

- Need the client logo on the left end of the header with the name under it.
- Search bar should be placed at the middle of the header.
- Sign in, shopping cart and the hamburger button should be placed alongside the search bar.
- The header should contain a banner with a highlighted offer.

BODY

- ▶ Body should contain flip cards, above which various categories such as Fashion, Accessories, Gadgets are displayed.
- ▶ All the categories should contain a drop down menu listing all the items in that particular category.
- ▶ Flip cards must also have appropriate images representing their purpose.
- ▶ Next to the flip cards should be a slideshow showcasing the various products in the web page with arrow marks to navigate through them.
- ▶ At the end of the body, the three products (which was mentioned earlier) should be displayed with their pictures. Add to cart and buy button are required to be placed below the products.

FOOTER

- ▶ Footer should contain the logo and the copyrights symbol and the corresponding text beside it.
